Mr. Mueller,

I received your name from Stephen Tzhone and he indicated that you would be able to assist with my request for additional information. The Port of Houston Authority was provided a copy of the attached map which includes four areas in red that are listed as "Area of Elevated Dioxin Concentration in Sediment-EPA." Can you please let me know the data source for the drawing of the four red outlined areas and provide the associated documentation/report or provide information on how the areas were delineated.

My contact information is:

Email: nhausler@poha.com

Mailing Address:

Nicole Hausler
Port of Houston Authority
PO Box 2562
Houston, Texas 77252-2562

I appreciate your time and assistance in providing this information.

Thank you.

Nicole

Hi Brian:

I'm forwarding some questions from POHA on the identified areas imported from the EPA TMDL section.
Please address, thanks.

* Nicole: fyi, there were recent clarifications made and for the future, please refer to those areas identified as by EPA TMDL section. That correction has been made in the map legend and with the SJRWP site team. Thanks for understanding.

Thanks,

Stephen,
Is there a document that lead to the identification of "the four areas identified by TCEQ and EPA TMDL Sections," that are referenced on the map? If there is, could you please forward it to me, if not can you please let me know how the four areas were determined.
Thank you.
Nicole
